

We stand against the runway extension and expansion of the Aurora Airport. They already have an expanded airport in Salem, so why not use this 37 million on that airport or not spend it at all. This area doesn't have the infrastructure – water, sewer, storm water as of yet, so this extension is just the beginning of dollars that need to be spent. Also, Our roads don't support this expansion. This just doesn't make sense.

Thank you,

Susan and Dennis Weehunt
